---

Dear Valued Client:

We at Stalker & Associates, Inc. want to keep you informed regarding the affect Health Care Reform will have on your business.

It is important to us, you are aware Health Care Reform changes do not affect your DENTAL PLAN coverage.

Some business owners have offered to extend dental coverage to their employees to be consistent with the *Adult Dependant Coverage to Age 26* benefit. Please note, this is on a strictly volunteer basis and is not a requirement under the new health care laws.

Also, be aware this change to your policy may increase you premium rates.

If you are considering making this change, kindly contact your dental provider for your plan specific information. As always, we are also here to assist you. So, please do not hesitate contacting your Broker or Broker Representative for assistance.

Best Regards,

Stalker & Associates, Inc.
